To Whom It May Concern:

I am delighted to write this letter of reference for Karl Robb. I have known Karl for several years and have heard him speak on numerous occasions.

I invited Karl to serve as a guest speaker in the Fall 2013 Evening Seminar Series at the VCU Parkinson's and Movement Disorders Center in Richmond, Virginia. His presentation "Staying Strong with Parkinson's Disease" was very well received, and he agreed to add additional sessions when the first two filled rapidly.

Karl's positive outlook is inspiring to those dealing with Parkinson's, and could be helpful for anyone dealing with a chronic disease. His life experiences and storytelling ability allow the audience to connect with him on a personal level. He is very approachable, and stayed after each session to answer participant's individual questions.

Karl Robb is a talented speaker who genuinely cares about helping those in the audience to improve their lives. He achieves this by sharing his both personal stories, with the challenges he has faced and overcome; as well as tips for others to overcome similar challenges. I would highly recommend him for future opportunities to share his story and help others.

Please do not hesitate to contact me if you have any questions.

Sincerely,

Andrea M. Perseghin, MEd  
Associate Director of Education and Outreach
